## Education

### Vellore Institute of Technology

Bachelor of Technology in Information Technology

CGPA: 8.77

Aug. 2023 – Present

Vellore, Tamil Nadu

### DAV Public School, Chandrasekharpur

Senior Secondary (Class XII) – PCM with Computer Science (CBSE)

Percentage: 90.2%

June 2020 – June 2022

Bhubaneswar, Odisha

## Experience

### Defence Electronics Application Laboratory (DEAL), DRDO

Summer Research Intern

May 2025 – June 2025

Dehradun, India

- Researched AI-driven network automation to address challenges in defence communication efficiency, resilience, and security.
- Analysed secure system design principles for mission-critical communication networks and evaluated AI-based automation approaches.
- Conducted technical literature reviews and documented research findings to support AI-driven network management studies.

## Projects

### CareerForge AI | React, FastAPI, PostgreSQL, SQLAlchemy, JWT

June 2026 – Present

- Developed an AI-powered career guidance platform to address fragmented career planning through resume analysis, ATS scoring, and career readiness assessment.
- Built secure FastAPI REST APIs with JWT authentication and PostgreSQL to manage user data and generate personalized career insights.
- Integrated a React dashboard with backend analytics, enabling real-time career reports and improving user experience through interactive visualizations.

### Judicial AI System | Python, Flask, React, Neo4j, NLP, XGBoost

Jan. 2026 – Present

- Developed an AI-powered legal analysis system to simplify case research using NLP and XGBoost for structured information extraction and outcome prediction.
- Integrated Neo4j knowledge graphs to visualize relationships between cases, statutes, and legal precedents for improved legal analysis.
- Built an interactive React dashboard to present explainable predictions and enable efficient exploration of legal insights.

### Serverless FileFinder | AWS S3, Lambda, API Gateway, DynamoDB, IAM

Oct. 2025 – Dec. 2025

- Developed a serverless file management application to simplify secure file upload, search, and deletion using AWS Lambda and API Gateway.
- Implemented Amazon S3 pre-signed URLs and DynamoDB metadata indexing to enable secure uploads and fast file retrieval.
- Configured IAM policies and CloudWatch monitoring to enhance system security, reliability, and operational performance.

## Technical Skills

**Languages:** Python, Java, C/C++, HTML/CSS, JavaScript, SQL

**Databases, Cloud & Tools:** PostgreSQL, MongoDB, MySQL, Neo4j, AWS (Lambda, S3, API Gateway, DynamoDB, IAM, CloudWatch), GitHub, VS Code, Cursor AI

**Technologies/Frameworks:** React.js, FastAPI, Flask, Node.js, Express.js, SQLAlchemy, REST APIs, AJAX, JWT

## Leadership / Extracurricular

### ACM Chapter, VIT

April 2025 – Dec. 2025

Core Member

- Assisted in organizing technical workshops, coding events, and hackathons while coordinating with cross-functional teams.

### Juvenile Care Club, VIT

July 2024 – Present

Outreach & Partnerships Head

- Led outreach initiatives, managed external partnerships, and coordinated community engagement events.
